

From Fabrication to Finish: One Tool Does It All The 2FS72M Belt Grinder

In every shop, efficiency isn't a luxury — it's a necessity. The Kalamazoo 2FS72M 2 x 72 inch belt grinder is built for professionals who need a machine that keeps up with the pace of real production. Whether you're shaping, deburring, or refining a finished weld, this grinder delivers the precision, durability, and performance demanded in today's fabrication and metal fabrication shop environments.

Versatility That Works as Hard as You Do

The 2FS72M is more than a grinder — it's a multi-purpose workhorse engineered to handle every phase of your workflow.

Welding fabrication: Clean welds, smooth edges, and prep surfaces in seconds.

Tool and die work: Sharpen punches, chisels, and custom tooling with accuracy.

General fabrication: Perfect for finishing, shaping, and surface conditioning a wide range of materials.

Precision Meets Durability

With its robust steel frame and powerful motor options, the 2FS72M stands up to years of daily use. Its simple belt tracking and quick-change design keep downtime low and productivity high — essential traits for shops that rely on the best tools to stay ahead of deadlines.

Made in the USA

Proudly built and supported in the USA, the 2FS72M represents the kind of craftsmanship that professionals trust — from small operations to large production floors.

Take Your Fabrication to the Next Level

Equip your shop with a grinder designed to outperform and outlast.
