

KALAMAZOO **INDUSTRIES, INC.**

Why Shop Owners Choose the Kalamazoo Industries 2SK7 Made in USA

A simple, hard-working combination belt & wheel grinder for real shops and repair facilities.

If your team builds, sharpens, and fixes every day, you need a machine that keeps up.

The Kalamazoo Industries 2SK7 is a tough, reliable bench grinder with a 2" x 48" belt and a 7" wheel that helps you work faster and finish better. It's built to last—and it's Made in USA.

What makes the 2SK7 a shop favorite

- Strong motor power for fast, smooth grinding and sanding across many materials.
- Combo flexibility: 2" x 48" belt for shaping and polishing, plus 7" wheel for quick, precise sharpening.
- Easy belt changes so you can switch tasks and keep jobs moving.
- Heavy-duty steel construction stands up to daily use in busy shops and repair facilities.
- Precision control for consistent, professional finishes on every pass.
- Made in USA quality and support you can count on.
- Chosen by shops and repair teams to save time, keep results consistent, and deliver clean, visible finishes.

Built for the work you do

- Sharpening and shaping shop hand tools and production tooling.
- Repairing and tuning used golf clubs for resale or custom work.
- Maintaining and restoring home tools for customer walk-ins and service programs.
- Integrates with your existing hardware and tools set—drop it on the bench and get to work.
