- REPAIR FACILITIES

PRODUCTIVITY BENEFITS

Faster material removal

Clean, precise finishing

Quick task switching

Less operator fatigue

Fewer reworks and better final quality

WHY CHOOSE THE BG272?

American-made durability

Superior performance vs imports

Better tracking & finish quality

Reliable long-term parts support

One tool for many shop tasks

RETURN ON INVESTMENT

Saves time on each part

Reduces scrap and mistakes

Lower maintenance cost

Long lifespan = significant long-term savings

BG272 VS STANDARD GRINDERS

Heavier, industrial frame

Higher belt speed

Stronger motor

Easier belt tracking

MADE IN USA advantage

SAFETY & RELIABILITY

Manual switch control

Smooth tracking adjustments

No weak components

Long-term parts availability

FITS ANY SHOP

Bench or table mount

Works with standard abrasives

Ideal for rough grinding to final finishing

Designed for daily industrial use
