

DS10V

Industrial Disc Sander with Vacuum

Heavy-duty 10" disc sanding for metal and wood parts with built-in dust collection for cleaner, faster finishing.

10"
PSA Disc Setup

100 CFM
Built-in Vacuum

1/2 HP
TEFC Motor

USA
Made in USA

Built for busy shops that need reliable finishing, flush fitting, and faster cleanup.

BUILT FOR BUSY SHOPS

Integrated vacuum base helps control dust and reduce cleanup time while finishing parts.

WHY DS10V

- All-steel construction stands up to daily production work.
- Adjustable steel work table tilts from 90° to 45° and locks in place.
- Independent switches give operators separate control of the sander and vacuum.
- 10" PSA disc setup supports 50, 80, and 100 grit sanding options.
- Great for deburring, edge work, flattening ends, and general cleanup.

AT A GLANCE

Motor: 1/2 HP, 1 PH, 115V TEFC motor

Vacuum: Built-in 100 CFM dust collection

Disc: 10-inch PSA disc setup

Table: Adjustable steel table tilts 90° to 45°

Current Draw: Sander 7.4A @ 115V | Vacuum 8.2A @ 115V

Shipping: 115 lbs total, ships in two boxes

Origin: Made in USA

IDEAL APPLICATIONS

- Deburring and edge cleanup
- Flash removal and surface finishing
- Flattening ends and trueing outside curves
- Metal, aluminum, and wood part cleanup
- Optional MG-10 mitre gauge available
