

MAXIMIZE YOUR SHOP'S CUTTING EFFICIENCY

Introducing the Kalamazoo K7B 7" Industrial Abrasive Chop Saw

The Kalamazoo K7B: Compact Power for Precision Metal Cutting

For fabrication shops, maintenance facilities, and construction teams that demand reliability without compromise, the Kalamazoo K7B delivers American-made precision in a compact, powerful package. Whether you're cutting rebar on the job site or processing pipe in your workshop, this industrial-grade saw is engineered to handle the toughest ferrous metals with ease.

WHY SHOPS ARE CHOOSING THE K7B

Powerful 1 HP Motor: The totally enclosed fan-cooled (TEFC) motor delivers smooth, consistent cuts through steel, rebar, and pipe—day in and day out. Running on standard 115V power means you can set up anywhere without special electrical requirements.

Built to Last: With a cast iron base and aluminum saw arm, the K7B combines rock-solid stability with practical weight management. The result? A saw that stays put during cuts but won't break your back when you need to relocate it.

KALAMAZOO INDUSTRIES, INC.

6856 East K Avenue, Kalamazoo, Michigan 49048

Toll Free: 800-592-2050 | Phone: (269) 382-2050 | www.kalamazooind.com

Hours: Monday – Friday, 8:00 AM – 4:30 PM EST | **PROUDLY MADE IN THE USA**

INDUSTRIAL EQUIPMENT SPOTLIGHT | January 2026 Edition

Controls: The screw vise with replaceable jaw holds your workpiece securely, while adjustable work length stops and down-stops ensure repeatable cuts every time. Perfect for maintenance departments and/or custom fabrication.
