Enhance Your Shop's Efficiency with the Kalamazoo 1SM Belt Sander

Whether you're running a full-scale fabrication shop or a compact garage workspace, the Kalamazoo 1SM 1" x 42" Belt Sander is the tool that fits—and performs—everywhere. Built in the USA with rugged durability and precision in mind, this compact sander is a favorite among professionals and hobbyists alike.

Big Performance in a Small Package

Don't let its size fool you. The 1SM is engineered to deliver powerful results in tight spaces. Its 1/3 HP motor and 1" x 42" belt make it ideal for a wide range of applications, from fine detail work to aggressive material removal.

What Can You Use It For?

The 1SM is perfect for:

- Metal finishing and deburring
- Knife and tool sharpening
- Wood shaping and smoothing
- Plastic and composite sanding
- General-purpose shop work

Fits Any Shop

With its compact footprint, the 1SM is ideal for:

- Small garages and home workshops
- Mobile workstations
- Industrial benches with limited space

Made in the USA

- Educational and training environments

Why Choose Kalamazoo Industries?

For over 50 years, Kalamazoo Industries has been a trusted name in American-made shop equipment. The 1SM continues that legacy—delivering reliability, performance, and value in one compact machine.
