

KALAMAZOO
INDUSTRIES, INC.

2SK7 Belt Sander / Bench Grinder Combination Made in USA

A compact, heavy-duty workhorse for shop owners and equipment refurbishment teams.

The Problem We Solve

Backlogs and rework from slow or inconsistent grinding/finishing.

Crowded benches—no space for separate tools for each job.

Downtime from hard-to-maintain equipment and long changeovers.

Inconsistent results that customers can see (and complain about).

Meet the 2SK7: A Two-in-One Productivity Booster

2" × 48" belt + 7" wheel — one footprint, multiple operations.

Fast belt changes to keep jobs moving.

Heavy-duty steel construction for daily, all-shift use.

Precision control for consistent, professional finishes.

Built to last and
Made in USA.

Key Benefits for Shops & Refurbishment Facilities

Throughput & Quality

Faster stock removal and cleaner finishes reduce rework.

Repeatable results across shifts and operators.

Compact footprint frees bench space for critical tasks.

Ease of Use & Uptime

Tool-less belt swaps reduce changeover time.

Straightforward maintenance keeps machines on the floor.

Rugged build designed for daily abuse in real shops.

Use Cases

Sharpening and shaping

- Shop hand tools
- Production tooling.

Repairing and tuning

- Repair and refinish used golf clubs for resale or custom builds.
- Maintain and restore home tools for walk-ins and service programs.
- Drop right into your existing hardware and tools—set it on the bench and go.
