

KALAMAZOO **INDUSTRIES, INC.**

Boost Your Shop's Efficiency with the Kalamazoo S460V Industrial Sander

Power, Precision, and Cleaner Workspaces All in One

When it comes to industrial sanding, every detail matters. The Kalamazoo Industries S460V Industrial Sander with Dust Collector Base delivers unmatched power and precision to help you finish jobs faster and cleaner.

This rugged sander drives a 4" x 60" heavy-duty belt, perfect for deburring, smoothing, and shaping metal, wood, and plastics. Its built-in dust collector base features a powerful vacuum that captures dust and debris at the source — keeping your workspace safer and your equipment cleaner.

Why Choose the S460V?

- Industrial strength: Tackle tough sanding jobs with confidence
- Cleaner workspace: Integrated dust collector reduces airborne particles.
- Versatile: Ideal for metal finishing, deburring, and shaping applications
- Durable design: Built in the USA to stand up to daily shop demands.
- Increased productivity: Work faster and with less downtime cleaning up.

Ready to Upgrade Your Shop?

Do not settle for less when you can have power and cleanliness combined. The S460V is the perfect addition to your workshop for reliable performance every time.

Get your custom quote today and discover how the S460V can transform your sanding process!
