Power, Precision, and Performance Meet the S460W Wet Belt Sander

From the shop floor to the final finish, the Kalamazoo Industries S460W is built to deliver.

Whether you're working with metal, composites, or plastics, the S460W Wet Belt Sander is your go-to solution for high-performance surface finishing. Designed for durability and engineered for precision, this 4" x 60" wet belt sander is a powerhouse that keeps your workspace cleaner, cooler, and more efficient.

Why Choose the S460W?

- **Superior Cooling** – The integrated coolant system reduces heat and friction, extending belt life and protecting your materials.
- **Heavy-Duty Construction** – Built with industrial-grade components to withstand the toughest environments.
- **Versatile Applications** – Ideal for deburring, polishing, and surface prep across a wide range of materials.
- **Easy Maintenance** – Simple belt changes and accessible components keep downtime to a minimum.
- **Made in the USA** – Proudly manufactured in Kalamazoo, Michigan with quality you can trust.

Perfect for:

- Fabrication shops
- Tool & die makers
- Aerospace and automotive industries
- Educational and vocational training programs

Ready to Upgrade Your Finishing Game?

Don't settle for less. Experience the Kalamazoo Industries S460W and see the difference precision engineering makes.
