

KALAMAZOO **INDUSTRIES, INC.**

Kalamazoo S8W 8" x 60" Wet Belt Sander

Boost productivity and precision in your shop with the Kalamazoo S8W Wet Belt Sander. Engineered for shop owners and machine operators who demand consistent finishes, reduced dust, and reliable performance, the S8W is designed to handle heavy-duty sanding and polishing applications with efficiency and safety.

Why Choose the S8W Wet Belt Sander?

The S8W offers shop owners and operators the power, flexibility, and durability needed for industrial metalworking environments. Its wet sanding capability keeps workpieces cool, reduces airborne dust, and delivers cleaner finishes—making it a must-have for precision work and operator comfort.

Key Features & Benefits

Feature	Benefit
8" x 60" Belt Size	Large sanding area for versatility and efficient stock removal.
Wet Sanding System	Keeps workpieces cool, reduces dust, and improves finish quality.
Heavy-Duty Construction	Built for industrial use, ensuring long-term durability.
Adjustable Water Flow	Control cooling and dust reduction for different applications.
High Torque Motor	Reliable power for demanding sanding jobs.
Safety Shield Included	Protects operators while maintaining visibility of the work area.
Vertical Design	Space-saving footprint, ideal for busy shops.
Quick Belt Change	Reduces downtime and keeps production moving.

Take Your Shop to the Next Level

The Kalamazoo S8W is more than just a belt sander—it's a productivity booster that enhances operator safety, efficiency, and finishing quality. Whether you're polishing stainless steel, deburring sharp edges, or prepping parts for welding, the S8W unmatched performance.
