

KALAMAZOO

INDUSTRIES, INC.

S10HD 10" x 90" Industrial Horizontal Belt Sander

Power. Precision. Throughput.

Built for continuous industrial use—flat, repeatable finishes on large parts.

Operator Wins

- Cover more area per pass with a wide 10" x 90" belt
- Rigid platen delivers true flats and consistent finishes
- ≈3500 SFPM for aggressive removal without sacrificing finish
- One-knob tracking + air tension (40–50 PSI) for quick changeovers
- Magnetic controls with jog; 24V operator-safe push-buttons

Proven Applications

- Deburr laser/plasma/saw-cut parts
- Flatten plates and bar stock
- Blend welds; smooth parting lines
- Prep for coating or bonding

Key Specs

Feature	Details	Feature	Details
Belt size	10" x 90"	Belt speed	≈ 3500 SFPM
Work surface	10" x 28"	Platen	Steel, reversible, 10" x 29"
Motor	10 HP, 3-phase	Voltage	230V or 460V
FLC	24 A @ 230V; 12.5 A @ 460V	Controls	Magnetic w/ jog; 24V
Tracking/Tension	One-knob; air 40–50 PSI	Dust	6" port hookup (external collector)
Ship dims	65"L x 65"W x 60"H*	Ship weight	≈ 1400 lb*

⚠ Dust Collection Notice: This machine provides a 6" port hookup for a dust collection system only—no internal collector. Connect to your shop's external collector.
