Upgrade Your Finish **S14HW Heavy-Duty Wet Belt Sander**

Keep your shop running smoothly with the S14HW 14 × 103" Horizontal Wet Belt Sander from Kalamazoo Industries — built for real-world performance and dependable metal solutions.

What the S14HW Brings to Your Shop

- Wet processing cuts heat and dust — longer belt life, less downtime.
- Smooth results on aluminum and metal alloys and tougher materials.
- Built for heavy steel processing, even on thick, hard pieces.
- One machine for many metal parts: deburr, flatten, blend, and prep.
- Reliable metal solutions that reduce rework and boost throughput.
- Made in the USA for quality, quick parts, and strong support.

Applications

The S14HW gives shop owners powerful applications across industries. It's ideal for fabrication, aerospace, automotive, and foundries needing precision and durability. With wet processing, it's built to handle a wide range of aluminum and metal jobs, as well as tough steel processing.

- Deburring sharp edges on cast or machined metal parts
- Flattening and planing aluminum and metal plates
- Smoothing weld seams on heavy steel processing jobs
- Blending transitions and finishing curved profiles
- Surface prep before coating, painting, or plating
- High-volume finishing for aerospace, automotive, and industrial components
