

S272 2" x 72" Industrial Multi-Purpose Belt Grinder

Built for Fabricators. Trusted by Professionals.

The S272 is a powerful USA-built belt grinder made for metalworkers who need lasting durability and precision for grinding, deburring, finishing, and shaping metal.

Perfect For:

- Fabrication companies
- Welding & repair shops
- Tool & die manufacturing
- Blacksmithing and blade making
- Industrial maintenance teams

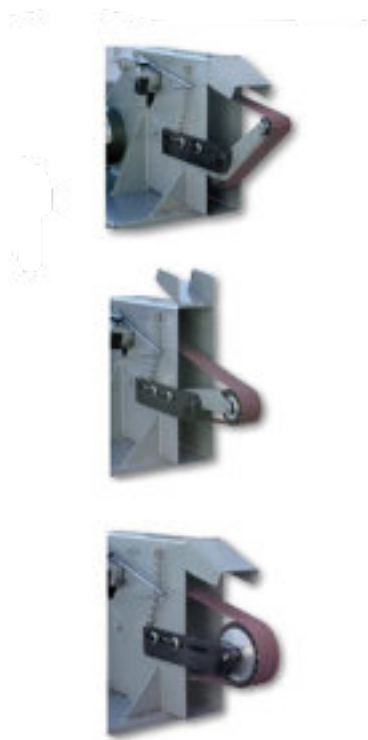

Why Choose the S272?

- 1 HP motor offered in 230V 1PH or 230V/460V 3PH configurations.
- Industrial-Grade Construction – Built for daily, heavy-duty use.
- Multi-Purpose Performance – Handles everything from rough stock removal to fine finishing.
- Quick-Change Contact Wheels – Swap wheels fast to match your task.
- Adjustable Worktable – Cast iron table with 5/8" slot for better accuracy.
- Smooth Belt Tracking – One-knob adjustment keeps the belt running true.
- Tool-Free Belt Changes – Fast and easy belt replacement.
- High-Speed Productivity – 5400 SFPM belt speed for aggressive metal removal.
- Available in Table or Floor Model (S272S grinder with steel stand)
- **Made in USA**
