## **S6MS Belt Sander with Stand**

---

The Kalamazoo Industries S6MS is a powerful and versatile 6 x 48 belt sander is designed for industrial-grade sanding, deburring, finishing, and sharpening. This stationary belt sander is engineered to deliver precision and durability across wood, metal, and composite materials, making it the best belt sander for professionals in fabrication, manufacturing, and repair shops.

### **Key Features**

- Heavy-duty 3HP motor available in 1PH or 3PH configurations.
- Adjustable multi-position sanding head for flexible operation angles.
- One-lever quick belt release mechanism for fast and easy belt changes.
- Durable cast iron frame and base for long-lasting stability.
- Precision adjustable cast iron worktable (6" x 10") with 5/8 inch slot.
- Operates at 3500 SFPM for efficient material removal and smooth finishes.
- Spring belt tension system for consistent sanding performance.
- Full safety guard and heavy-duty steel stand included.

### **Applications**

This woodworking belt sander doubles as a reliable metal surface preparation machine, ideal for sanding, deburring, polishing, beveling, rust removal, and final finishing. Its versatility makes it suitable for use on ferrous and non-ferrous metals, wood, plastics, and composites.
