S6MV 6 x 48 Inch Metalworking Sander & Vacuum

Ditch the dust and frustration! The Kalamazoo S6MV is your solution for efficient sanding and a healthier workspace. This powerful and versatile machine combines a top-notch dust control system with the sanding power you need to tackle tough metalworking, woodworking, and fabrication projects.

Key Features & Benefits

Heavy-Duty Dust Control:

- Powerful 100+ CFM vacuum with filter significantly reduces airborne dust and debris.
- Easy filter changes and fast debris clean-out for minimal downtime.

Powerful Performance:

- 3HP motor delivers exceptional sanding power for even demanding materials.
- 6 x 48 inch belt accommodates larger work pieces.

Enhanced Versatility:

- Multi-position sanding head (horizontal, vertical, in-between) for various shapes and angles.
- Works great on metal, wood, and other materials.

Built to Last:

- A robust, enclosed steel stand delivers stability and durability.
- Magnetic on/off switch for safety and convenience.
- Compact Footprint: Saves valuable floor space in your workshop.
